# Gagandeep Nanda

Quality Assurance @ Bank of America | Automation Specialist  
India

## Summary

I am an Assistant Manager at Bank of America, where I collaborate closely with product owners and business stakeholders to automate the testing of new applications in UAT and pre-production environments.

With a strong background in quality assurance and automation, I have developed proficiency in Agile Testing Methodology, Cloud Migration and management. I have successfully automated various applications using TOSCA, facilitating more reliable and efficient regression testing and quality assurance. I hold MBA in Fintech from Manipal University Jaipur and multiple certifications in automation and Jira. My goal is to leverage my skills and experience to deliver high-quality solutions that meet the needs and expectations of clients and stakeholders.

On a personal level, I have gained substantial experience in enhancing business operations and devising strategies to boost revenue. Additionally, I possess hands-on expertise in WordPress, particularly in developing both blogging and e-commerce websites.

---

## Experience

Bank of America  
Assistant Manager  
February 2022 - Present (3 years 2 months)

As the Quality Assurance for User Acceptance Testing (UAT) and pre-production phases, my primary responsibility is to collaborate closely with product owners and business stakeholders in order to fully comprehend their requirements. Additionally, I am accountable for automating the testing of new applications in UAT and pre-production environments. To effectively manage vendors, I utilize the GEP Smart platform, ensuring seamless coordination and efficient vendor management processes

Wipro Limited  
Technology Lead  
May 2021 - February 2022 (10 months)  
Hyderabad, Telangana, India

I have been actively involved in managing automation resources and conducting Proof of Concepts (POCs) on various applications to assess their suitability for automation. As the responsible party, I successfully automated new applications utilizing the TOSCA tool and consistently communicated the status of automation to clients, ensuring transparency and keeping them informed throughout the process.

Accenture  
Associate Application Developer  
August 2015 - May 2021 (5 years 10 months)  
Hyderabad Area, India

I was entrusted with the responsibility of overseeing regression testing and driving the implementation of automation using TOSCA. By leveraging the power of automation, I facilitated more efficient and reliable regression testing processes, ensuring that software updates and changes did not adversely impact existing functionality.
